Marian – The requested 1995 report is still out of our grasp, but we are still searching; it apparently was a report routinely provided to USEPA, Region II, Office of Water - - do you have any contacts there that may have a copy too? In the meantime, we are looking and I'll keep you posted. Thanks for your patience, Anne

Subject: Request for Article

Hi Anne and Gary,

I'm trying to locate an article that was developed by NJDEP. The article was listed in your response to the creel survey conducted by the CPG for the Passaic River.

The article is listed as:

NJDEP 1995. A Survey of Urban Anglers from the Newark Bay Complex – Risk Perception, Knowledge and Consumption. Final Report to USEPA Region 2, Office of Water.

Do you have a copy of this document? If so, kindly fax it to Alice Yeh at 212 637-3256. Her phone number is 212 637-4427.

Thanks.

Marian
